9 April 1969

MEMORANDUM FOR: Director, SIPS Task Force

SUBJECT : Annual Information Science Training Report

1. Attached are copies of the minutes of two meetings of the Education and Training Subcommittee of the Intelligence Information Handling Committee. These minutes deal with the content of the Annual Information Science Training Report for which the Agency's contribution will have to be produced by the Agency training record.

25X1A [redacted] the Agency member of the Training Subcommittee, tell me they have discussed this requirement directly with [redacted] and 25X1A [redacted] It is [redacted] understanding that the requirement can be satisfied without too much difficulty although there will be some requirement for manual compilation of some of the information required by the report. Neither [redacted] know how much programming 25X1A will be involved and we have no way of assessing what impact this will have on your resources.

2. You may want to look at this to see if there is anything we want to do about suggesting a change in the content of the report which would simplify the problem of producing it. If there is anything you want me to do about it I will expect to hear from you.

[redacted] 25X1A
Chief, Support Services Staff
